SUMMARY

Obtaining my BA in Humanities degree from the University of Johannesburg stands as one of my significant achievements. Additionally, I am a self-taught software developer, acquiring skills from Code Academy and FreeCodeCamp. My education has equipped me with technical knowledge, while my practical experience, gained through volunteering at the University of Johannesburg, has honed my skills further. I've contributed to various initiatives, including nursing homes, orphanages, and hospitals, demonstrating my commitment to community service. Moreover, I've developed projects showcased in my portfolio, focusing on Front-End languages, and provided assistance to fellow students struggling with their projects, particularly in Front-End development.

EDUCATION

Vulakwenile Secondary School Matriculated in 2019

University of Johannesburg
